Hospital Grade Breast Pump

Personal Use  
Hygeia Breast Pump

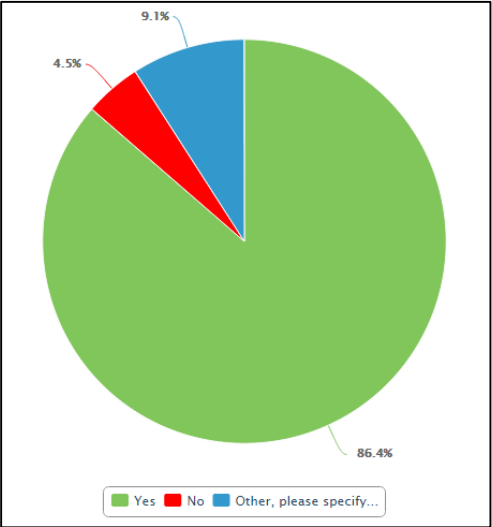

# Superior Advantages with Hygeia...

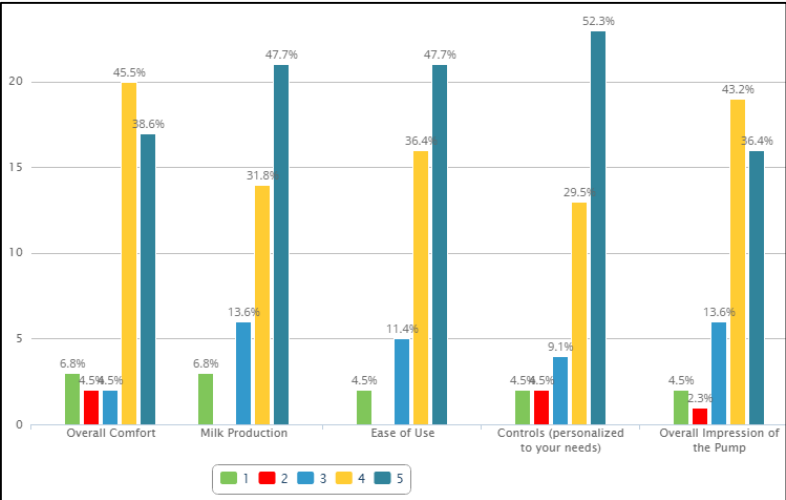

Feature	Benefit	Hygeia	Market Leader	#2
<b>Personalized Controls</b>	Separate, adjustable speed and strength controls for Mom's individual comfort level			<b>X</b>
<b>Double Electric Breast Pump</b>	Moms have the option of using choosing a single or double pumping experience		<b>X</b>	<b>X</b>
<b>Closed System</b>	Closed systems are built to protect the child from contaminants			<b>X</b>
<b>WHO Code Compliant</b>	We believe that breast milk is the normal way to feed babies and choose to market our products without undermining breastfeeding in any way			<b>X</b>
<b>Hospital-Grade Quality</b>	Hygeia offers the same speed and strength performance as the pumps used in a hospital setting			
<b>Multi-User Pump</b>	The bacteriostatic filter allows the pump to be shared safely from one mom to another			
<b>Recyclable</b>	Hygeia is an ecofriendly company that will recycle or re-purpose your pump			
<b>Eco-Friendly Cordless Upgrade Feature</b>	The cordless feature is great for moms going back to work, moms who travel and for moms on-the go			
<b>Can Pump at Elevation</b>	Moms don't lose any suction power when pumping above ___ feet. This is important for moms using their breast pump while on vacation
